**Apollinaris** (Q[uintus]) [pseud.?]. Kurtzs Handbüchlein und Experiment vieler Arzneyen, durch den gantzen Körper des Menschen, von dem Haupt biss auff die Fuss. Sampt lebendiger Abcontrafactur etlicher gemeiner Kreütter, und darans mancherley Gebrandten und distillierten Wassern, Krafft und Tugendt. Jetzundt von neuem gemehret und gebessert sampt einem nützlichen Register. 1 p. l., clv l., 6 l. 16°. *Strassburg, J. Rihel, 1583.*

— The same. Mit vielen Kräuter und Experimenten gemehret und gebessert. Samt den Experimentbüchlein von zwanzig Pestilentz Wurtzeln dess hochgelehrten Tarquini Oeyori. 1 p. l., ccxii l., 16 l. 16°. *Strassburg, J. Grädel, 1677.*

— Ein ausserlesen schön Artzney- und Kräuter Buch, von mancherley bewehrten Experimenten und Artzneyen, dadurch dem menschlichen Körper, in zutrugenden Fällen, da man die Medicos nicht haben kan, vom Hüppte an biss auff die Füsse mag Rath schaffen. Jedermanniglich zu Dienst in drey Bücher abgetheilet, unter welchen das letzte absonderlich von Pestilentz Kräutern handelt. Erstlich durch den . . . D. . . bewehrt befinden und zusammen getragen, jetzundt aber von neuen überschen, und mit lebendiger Abcontrafactur der fürnehmsten Kräuter, neben Beschreibung der Krafft, deren daraus gebrandten Wasser, gebessert und vermehret. 1 p. l., 140 pp., 2 l. 4°. *Erfurd, durch T. Fritzsche, 1629.*

— Von bewehrten Experimenten das ander Buch: darinnen begriffen hundert und vier und sechtzig der fürnehmsten, heilsamsten und nutzbarlichsten Kräuter, so mehrentheils dem gemeinen Mann bekandt sind, sampt derselbigen lebendigen Abcontrafactur, aneh Beschreibung der Krafft und Tugenden und derer daraus gedistillierten Wasser. Mit eigndlichem Bericht, wie der Mensch in bevorstehenden seinen Leibes Schwachheiten und Mängeln, solche distillierte Wasser ensserlich oder innerlich an seinem Leibe ihme zu Nutz gebrauchen könne. Aus vielen bewehrten Autoribus zusammen getragen, auff new übersehen und dem gemeinen Mann zu Nutz in Druck gegeben. 141 pp., 7 l. 4°. *Erfurd, T. Fritzsche, 1629.*

— Das dritte Buch dess Hand- und Experiment Buchs, welches ist warhaftige Beschreibung aller fürnehme Pestilentz Kräuter und Wurtzeln, deren an der Zahl zwanzig, und durch der Artzney hochehrfahnen D. Tarquinium Oeyorum, alias Schnellenberg von Dortmund, anss fleissiger Nachforschung wider die abschewliche Seuche der Pestilentz dienlich und bewehrt befunden sind. Jetzundt auff new übersehen, und mit aussführlchem Bericht, wie ein jedes Experiment mit Nutz gebraucht werden kan, verbessert. Neben gemeldter Kräuter und Wurtzeln Contrafacturen, und zu End beygefügt nützlichen Register. 77 pp., 1 l. 4°. *Erfurd, durch T. Fritzsche, 1629.*

— Bericht vom Urin. Aus Hippocrate, Galeno, Avicenna, Isaaco, etc., kurtzlich zusammen geschriben.

In: MAY (T.) Urin-Büchlein. 16°. *Hamburg, 1738, 73-107.*

Τὰ ἀσζόμενα. *Operum Aristotelis Stagiritae philosophorum omnium longe principis nova editio*, Graece et Latine. Graecus contextus quam emendatissime praeter omnes omnium editiones est editus, adscriptis ad oram libri et interpretum veterum recentiorumque, et aliorum doctorum virorum emendationibus: in quibus plurimae nunc primum in lucem prodeunt, ex bibliotheca Isaaci Casanboni. Latinae interpretationes adjectae sunt quae Graeco contextui melius respondent, una cum iis quae antehac in hoc opere desiderabantur, partium recentiorum, partium veterum interpretum: in quibus et ipsis multa nunc emendata atque illustrata eduntur. Accesserunt hinc editioni Kyriaci Strozæ libri duo politicorum graecolatini, in quibus ea quae ab Aristotele in 8 libris explicata non fuerint persequitur: insuper addita sunt ex libris Aristotelis quae hodie non supersunt fragmenta quaedam. Adjecti sunt etiam indices duo peritiles, quorum alter nomina auctorum qui in Aristotelem scripserunt, continet: alter quid sit a quoque in singulas librorum ejus partes scriptum indicat, necnon alius index rerum omnium completissimus. 2. v. [Additional title to 2, v.] Librorum Aristotelis qui non extant.

**Aristoteles**—continued.

fragmenta quædam. Item, indices duo, [etc.]. 9 p. l., 946 pp.; 846 pp., 28 l. fol. *Geneva, apud Petrum de la Roviere*, 1605.

**Arsenic (Poisoning by)—Cases and trials.**

BRIGHTON (The) poisoning case. [Trial of Wm. H. King for poisoning his wife by arsenic.] 12°. [Cobourg? 1859.]

CAPT. CRANSTOWN'S account of the poisoning of the late Mr. Francis Blandy, of Henley-upon-Thames, Oxfordshire; declared solemnly by him before he died, at Farnes, in Flanders, on the 30th of November last. In which are contained some particulars of his private marriage with the late unfortunate Miss Blandy, and copies of these letters, from the said Miss Blandy to him in Northumberland, bearing the several dates of June 30, July 16, and Aug. 31, 1751, which was just preceding the poisoning of the said Mr. Blandy, [etc.]. 8°. London, [1752.]

CASE (The) of Miss Blandy and Miss Jeffreys fairly stated and compared, in which the natural passions, premeditation, and consequences of murder are considered; with proper cautions to parents, guardians, mistresses of boarding schools, etc., who are intrusted with the education of young ladies; also some general reflections on the passion of love, addressed immediately to the fair sex. 8°. London, 1752.

DANSVILLE (The) poisoning case. 16°. Dansville, 1858.

DENSMORE (Helen). The Maybrick case: English criminal law. 8°. London & New York, [1892, *vel subseq.*]
